

About Us

History

Koenigsegg Automotive AB, founded in 1994 by Christian von Koenigsegg in Sweden, specializes in high-performance sports cars. The company's first prototype, the Koenigsegg CC, debuted in 1996. In 2002, they launched the CC8S, followed by the CCR in 2004, which briefly held the title of the world's fastest production car. Koenigsegg continued innovating with the CCX in 2006 and the record-breaking Agera RS in 2017. In recent years, they introduced the Jesko in 2019 and the four-seater Gemera in 2020. Renowned for their engineering excellence and cutting-edge design, Koenigsegg produces some of the most advanced hypercars in the world.

About KOENIGSEGG

Koenigsegg Automotive AB is a Swedish high-performance car manufacturer founded in 1994 by Christian von Koenigsegg. The company is renowned for its technological innovation and advanced hypercar designs. With notable models like the CCX, Agera, Jesko, and Gemera, Koenigsegg consistently pushes the boundaries of speed and automotive engineering. Known for their unique features, incredible speed, and precision engineering, Koenigsegg cars are among the most exclusive in the automotive world.

Our Vision

Our vision is to be a global leader in advanced automotive technology and high performance, while maintaining the exclusivity and luxury that differentiates their brand. We strive to push the boundaries of technology and design, creating vehicles that are not only fast and powerful, but also beautiful and sustainable.

Our Mission

Technological Innovation: Developing and implementing the most advanced automotive technology. High Performance: Creating the highest performance vehicles in the world. Exclusive Design: Producing cars with unique and exclusive designs. Sustainability: Reducing environmental impact through efficient and sustainable technology. Customer Satisfaction: Provide an exceptional customer experience through personalized service.
